

### PLB Beam Series

The PLB Beam Series is perfectly suited across a diverse range of interior work spaces as well as the public, healthcare, hospital and education sectors.

Acid and alkali resistant, especially suitable for the places to be frequently sterilized, such as healthcare, hospitals and laboratories.

### Features

High density injection moulded PU shell around an internal steel frame.

Extremely durable powdercoated steel frame and table.

Available with side table, perfect for waiting areas.

3 stylish colours blue, red and dark grey.

Aluminium die-cast powdercoated armrests to all ends.

Floor fixings available on request.
